Subject: Hello from England.

My name is Jean Meek.

I have just return from holiday on Hickory Island.

You may remember our speaking in the car park of The Seafood Grille and Marina on Hickory Island, when we talked about a child with special needs, with whom I work. (You were there for a meeting to get a station there. Congratulations on achieving it)

You kindly gave me your card and encouraged me to visit the station.

This I did and received a very warm welcome.

I took lots of photos of various vehicles and a goodie bag of insignia, stickers and cup holder.

Together with two great helmets

I also managed to photo one of the engines out on the road later in the week.

Today, I took all this material into school.

We made up a folder, decorated on the front with the Bonita Springs cloth insignia, junior fire fighter sticker and his name.

He has attached all the photos etc inside the folder.

This has delighted the child, and kept his concentration for 2 hours.

I am sending this as an acknowledgement of your very open response to my request, which is greatly appreciated.

Also to let you know that working on this little project has brought great joy and excitement to a 7yr old boy.

Thank you again,

Best Wishes to you and all your colleagues.

Keep Safe,

Jean Meek
