

To the four firemen who helped me on Wednesday, February 24-----

I think I remember your names – Sebastian, Mike, Erik, Jimmy. If not, so sorry but I know you understand.

You were fantastic. I came in with what I thought would be a simple blood pressure check (after feeling a little woozy in the Chamber of Commerce parking lot next door) and you jumped right into your professional roles. You were warm, thorough and reassuring in your analysis and treatment in the fire station. And, when I broke down a little at the thought of calling an ambulance and going to the emergency room, you knew exactly what to do to keep me calm while asserting the fact that I needed to go – immediately.

Giving me injections to lower my heart rate was a challenge given my very small blood veins and you handled the situation perfectly, again, always keeping me calm. And, thank you, Sebastian, for riding in the ambulance with me.

I cannot say enough about what your professionalism and your degree of training meant to me. I felt confident that I was in good hands.

With utmost sincerity for a job well done,

Jone Riester

Jone Riester, Appleton Wi

To my dearest firemen @ Station #23-

I know you have the comic image of saving cats BUT this time you saved me!

*Please have a treat at Starbucks on me.

Most gracious thanks-
Jone Riester
