

In May, you may have saved his life by taking his temp and calling an ambulance to take him to NCH. Without our knowledge, he can gotten an infection that attacked his heart.

Last Sunday, you made a neighbors grandchild happy by giving him a hat and showing him the fire-truck - after helping my husband get back to his left chair.

Ron & Carol Marlow
10470 Wild Turkey Ave.

Thank you
for all the times
when you've been there
helping, giving, caring...
for all the times
that have been
brighter, happier, richer...
because of you.

Thank you all for
being there when we
have needed you to
help my husband who
has fallen to get up.
